

Inside Information

The outward appearance of a garment is important, but upon its inside construction its service depends.

You may rely upon your own discernment as to its appearance, but beyond that you are at the mercy of the maker of that garment.

What has been your experience? If it has not been to your entire satisfaction we would like to convince you of the worthiness of the inside construction of our garments.

It entails no risk upon your part, for we guarantee every garment. We do this knowing that the materials employed are of the best; that the workmanship is of a high order, and that all those points of construction which modern tailoring demands have been observed.

Business Suits for Men,
\$10 to \$35.

Top Coats for Men,
\$10 to \$35.

Boys' Apparel.

A BOY'S SUIT—Everything has been done toward making this the best suit ever offered for Five Dollars. Penn. Ave. & Seventh St.

COMMITTEE'S REPORT.

Conclusion Reached by Attorneys Regarding the Waggaman Estate.

The report of the committee, consisting of Messrs. Joseph D. Sullivan, Smith Thompson, Jr., and Leonard J. Mather, submitted to the meeting of lawyers representing creditors of Mr. Waggaman held late yesterday, the substance of which was published in The Star, is considered by the lawyers to be of decided interest and importance. Following is the report in full:

"Your committee, appointed to report at this meeting concerning the approximate value of 'list No. 1,' to assist the referee in determining what amount of 'list No. 1' claims should be paid over and above the value of their securities or priorities in order that their voting capacity may be fixed before the first creditors' meeting, which is scheduled for Friday, the 21st instant, beg to say:

"On Wednesday last, the 19th instant, your committee waited upon Mr. Thomas E. Waggaman at his place of business at 917 F street northwest, and went over with him as carefully as possible such of his affairs as related to 'list No. 1.'"

"Your committee has also consulted with experienced and conservative real estate brokers with regard to the valuations of the various tracts of land which go to make up or form a basis for 'list No. 1,' and after careful consideration, has analyzed and divided 'list No. 1' into the following:

Collateral security..... \$2,349.87
Straight trust..... 40,466.00
In name of..... 4,562.00
Catholic University..... 32,492.00
10th street..... 2,400.00
Wimer (Cliffbourne)..... 401,800.75
Cleveland Park..... 61,013.53
Plain purchase—Wesley Park..... 53,000.00
Green purchase..... 53,000.00
Dundane..... 20,000.00
Goldborough tract..... 10,000.00
John T. Waggaman..... 47,174.49
H. P. Waggaman..... 220,181.50

Brought forward..... \$1,191,346.58
Square 735..... \$1,261,856.41
Total..... \$1,261,856.41

Subject to Liens.
Of these tracts which thus purport to be secured, and as against which perhaps 'list No. 1' creditors have an enforceable equitable lien, there appears as follows:

a. Straight trusts represented by Mr. Waggaman to be first trusts, and in the main taken on Mr. Waggaman's Wesley Heights properties, which amount to the sum of \$46,000.

b. Notes outstanding in the main against the same properties, payable to S. E. Allen, Jr., which notes Mr. Waggaman assured your committee will be indorsed to him by Mr. Allen as soon as he returns to Washington. Said notes amount to \$20,450.

c. Notes outstanding in the main against the same properties, payable to the Catholic University, which notes as well your committee was assured will be indorsed by the proper authorities of the said university to Mr. Waggaman, which has surrendered whatever interest it might formerly have had therein to the bankrupt. Said notes amount to \$2,492.

d. Green purchase, "Woodley," against which appears notes aggregating \$33,000. These notes are secured by a mortgage above all the record incumbrances thereon, but of this your committee has been unable to satisfy itself. This security, therefore, is taken on the basis that the property is good for both its record incumbrances and the notes belonging to 'list No. 1' creditors aggregating the above amount of \$33,000.

e. Goldborough tract, in which your committee has been unable to find any notes outstanding aggregating \$21,420, which are likewise considered as being over and above all the record incumbrances thereon, and supposed that the property is good for both its record incumbrances and the above outstanding amount of notes for \$21,420.

f. Goldborough tract, in which your committee has been unable to find any notes outstanding against it amounting to \$10,000. As these three last named tracts are perhaps contiguous to each other and merged more or less in "Woodley," it has not been possible for your committee to ascertain just the amount of record incumbrances thereon, but considering that the property is sufficient to pay not only what incumbrances there are, but as well the notes secured by 'list No. 1' outstanding against them, on the securities should be worth the above amount of \$10,000. Total, \$184,318.

Large Trust on 16th Street.
In relation to the property described as "16th street," which has an area of 206,000 square feet, there are trusts of record amounting to \$200,000, and in addition to this it appears to be charged on "list No. 1" to the extent of \$200,504.74.

As to the "Wimer purchase," also known as "Cliffbourne," which has an area of 350,000 square feet, there is a record incumbrance of \$200,800. It also appears charged on "list No. 1" to the extent of \$401,800.75. Your committee is informed that this property will not sell for an amount in excess of 10 cents per square foot, which would barely pay off the record incumbrance.

Plain purchase, Woodley Park, is owned by Thomas E. Waggaman (two-fifths), H. P. Waggaman (two-fifths) and Samuel Waggaman (one-fifth). There is a record incumbrance of \$100,000, and it appears charged against it on "list No. 1" is \$50,000. Your committee is informed that this property will not bring the record incumbrance.

As to the Cleveland Park property, subdivided and unsold, which has a record incumbrance of \$100,000, it is not believed that there will be any remaining equity.

As to the holders of "list No. 1," your committee has been unable to establish an equitable lien, "16th street," "Wimer purchase," "Plain purchase, Woodley Park" and "Cleveland Park" will bring the amounts covered by the deeds of trust which have been placed thereon.

The second largest item charged on "list number one" is the amount due to personal account of H. P. Waggaman, which is \$200,181.20. Mr. Thomas E. Waggaman had an agreement with his brother, H. P. Waggaman, by which the latter interest was conveyed to the former to secure his (the said H. P. Waggaman's) indebtedness and the said H. P. Waggaman, Thomas E. Waggaman, Mr. H. P. Waggaman appears to have had a half interest in the 16th street property, the Wimer purchase and Plain purchase, and in addition interests in other property owned jointly by himself and brother, but your committee is of the opinion that there are no equitable claims in any of these properties (with the possible exception of "Woodley"), and, therefore, that there will be nothing out of which to satisfy such claims.

Deficiency Predicted.
Since the value of the notes enumerated in "list number one" depends upon realizing upon the equities owned by Mr. Thomas E. Waggaman in the various places of property heretofore mentioned, and further, in the establishment of an equitable lien against those equities for the amounts of the notes, it appears to your committee that there will be comparatively little realized from these sources, and that the deficiency in the security thus sought to be realized by the holders of notes purporting to be secured on "list number one," will amount to approximately 75 per centum of the face value of the claims thus secured.

Your committee, therefore, recommends that the referee allow holders of such notes to vote to the extent of 75 per cent of the face value of their claims."

Black Smallop in Chicago.
A dispatch from Chicago last night says: Hemorrhagic smallpox, the "black" variety dreaded by physicians, from which not one patient in ten thousand recovers, according to health department officials, claimed its second victim today within two days. Mrs. Margaret Olson, 36 years of age and the mother of two young children, was reported to Chief Medical Inspector Spalding, and he diagnosed the malady as hemorrhagic smallpox. The death of Mrs. Anna Lee at the isolation hospital of the city, a victim of smallpox, added to that of Mrs. Olson, has aroused the health department to still greater exertions.

Three Trainmen Killed in Wreck.
SYRACUSE, N. Y., October 21.—A special to the Herald from Geneva, N. Y., says: Two freight trains on the Pennsylvania division of the New York Central collided near this city. Three trainmen, C. D. Rogers, Charles Hickey and Engineer Rouse, were killed.

Steamer Buenos Ayres Reaches Port.
HAVANA, October 21.—The Spanish royal mail steamer Buenos Ayres, which left New York October 13 and which more than three days overdue, arrived here today. Her captain reports that he went far out to sea in order to avoid the Florida straits during the recent storm. The steamer suffered no mishap.

Slight Earthquake at St. Louis.
ST. LOUIS, Mo., October 21.—A slight earthquake shock, traveling from northwest to southeast, was felt here today. The disturbance was recorded on the seismograph in the weather bureau exhibit of the Philippine government at the world's fair. The earthquake caused a slight rattling of dishes in various parts of St. Louis, but did no damage.

PEOPLE FLOCK TO HAHN'S Because "HAHN'S SHOES" are "BEST."

THE daily increasing popularity of HAHN'S SHOES is due to the fact that we give you more for your money than other stores.

WHY? Because we buy much larger—consequently, cheaper—also sell cheaper because our own, rent-free stores permit us to cut down considerably the expense that must be added to the cost of shoes.

All this gives you more, dollar for dollar, than you get in other shoes—hence, this record-breaking fall trade.

OUR MEN'S GREAT FALL SHOES

Because of their exceptional merit are the talk of all Male Washington—they're truly remarkable values—and it's only a natural consequence that our Sales are doubling in this Department.

Here are but a few of our great Specialties:

| | | |
|---|---|--|

W.W. HAHN & CO.'S 3 Reliable Shoe Houses,

Cor. 7th and K Sts. 1914 & 1916 Pa. Av. 233 Pa. Ave. S. E.

TO CONTINUE TUNNEL WORK. Legal Difficulties Removed and Railroad Officials Are Happy.

The contractor for the construction of the 16th street tunnel in connection with the railroad terminal work has made arrangements with the District authorities whereby he may proceed with the construction of that portion of the tunnel north of C street northeast. For several weeks the work on this feature of the terminal work has been practically at a standstill, and the contractor and railroad officials, it is stated, were becoming anxious over the delay in the prosecution of the work. The delay was caused, it is stated, by reason of legal difficulties connected with the transfer to the District from the Baltimore and Ohio Railroad Company of certain property located along the route of the tunnel.

It is stated that there were some questions as to the title of the property which had to be settled before the transfer of the property could be made to the District, and until this matter was settled the District could not remove the houses on the land and permit the contractor to dig the tunnel at this point.

In order to continue the work on the tunnel the contractor, it is stated, has agreed to tear down the houses at his own expense and pile the material in some suitable spot. The houses in question are located on the east side of 1st street between D and E streets northeast.

A proposition is now under consideration by the District officials and the officials of the railroad company to limit the height of the buildings to be erected fronting on the union station plaza. The plan is to maintain a uniform sky-line and Architect Burnham of the union station building has suggested that the height of the corners of the buildings fronting on the plaza be limited to seventy feet. The cornice of the station building will be sixty-nine feet high but the top of the building will extend about thirty feet above the cornice.

It seems desirable that the height of the buildings fronting on the plaza should not be higher than the station building, as it is considered that the effect would be undesirable if the sky-line of the surrounding buildings were uneven and extended above the roof of the station.

All the property fronting on the plaza is owned by three parties—the District of Columbia, the Baltimore and Ohio Railroad Company and the Warder estate. The District and the railroad company have agreed to the proposition to limit the height of buildings fronting on the plaza, and it is believed that the railroad company will also agree to the proposition and that congressional action will not be necessary to secure the end desired. In the event such an agreement is reached among the three parties in interest it is stated that when either of the parties dispose of property fronting on the plaza the deeds will contain a clause restricting the height of the buildings.

Another proposition in connection with the buildings about the plaza has also been suggested to the authorities. It is proposed that an uniform color scheme be adopted for the structures about the plaza. The station building is constructed of white granite and it is proposed that the buildings surrounding the station be of white or cream color. It is considered that the introduction of a red brick building in the plaza would be entirely out of harmony with the appearance of the station and plaza, and an effort will be made to secure the adoption of an uniform color scheme for the buildings.

Patrick Granahan, a well-known citizen of upper Luzerne county, Pa., was found dead in the kitchen of his home yesterday. There was a bullet wound in the back of his head and a deep gash in the forehead. The family claims he was murdered.

Deserter's Suicide at Connellsville.

A dispatch from Cumberland, Md., last night says: Robert Lee Booth, committed suicide at Connellsville last night. He feared arrest for desertion from the United States army two years ago and for the theft of \$18 from the trunk of his brother-in-law. He drank carbolic acid. Booth was twenty-three years old and formerly worked for the Baltimore and Ohio railroad. His body will be shipped to Coatsville, Va., where his parents reside.

Effort to Stop Tobacco Merger.

TRENTON, N. J., October 21.—Justice C. Kellheimer and others today filed in the court of errors and appeals an appeal from Vice Chancellor Pitney's decision in which he refused to enjoin the merger of the American Tobacco Company, the Consolidated Tobacco Company and the Continental Tobacco Company.

The injunction was denied on Wednesday and on Thursday the articles of merger were filed with the secretary of state.

Argument in Court of Appeals Concerning Market Privileges.

The Court of Appeals today heard arguments in the cases of James Taylor, plaintiff in error, and Walter R. Sanford, plaintiff in error, against the District of Columbia, involving the question of the right of the District Commissioners to regulate B street from 7th street to 12th street in respect of its occupation by farmers and hucksters. The Commissioners, by a regulation, have excluded the hucksters entirely from the space described and have authorized the marketmaster of the wholesale market to mark off spaces on the sidewalks and assign them by written permit to farmers and gardeners selling produce of their own raising to the entire exclusion of hucksters, who, by the regulation, are compelled to sell from assigned spaces on 12th street, Little B street and on the contiguous portion of the reservation between 10th and 12th streets and B and Little B streets.

It is claimed that the action of the Commissioners is unlawful, first, because they have not the power to make such a regulation, and secondly, because the regulation discriminates between two classes of people in the same business, and intrusts to the marketmaster of the wholesale market the power further to discriminate among members of the favored class—the farmers and gardeners selling their own produce.

The controversy involved in these cases has been before the courts since 1885, but this is the first opportunity given the Court of Appeals to pass upon it. Among other contentions made for the hucksters is that the space in question has been in effect a public market for a full century, and that beyond making such regulations as may tend to preserve cleanliness and order the Commissioners have no power to interfere with the carrying on of business there.

It is explained that more than 100 hucksters are directly interested in the cause. The plaintiffs in error are represented by Attorney Henry E. Davis. Assistant Corporation Counsel T. H. Stephens argued the case today in behalf of the District of Columbia.

Ames Jury Disagreed.
MINNEAPOLIS, Minn., October 21.—After being out since 5 o'clock Wednesday afternoon, the jury in the bribery case against former Mayor Ames announced today that it could not agree. Judge Harrison thereupon discharged the jury. Dr. Ames was indicted for illegally receiving money from women.

Prospector Died in the Mountain.
A dispatch from Martinsburg, W. Va., last night says: An old man named Chappelle, a prospector from Morgan county, has disappeared and his dead body has been found and an investigation is being made. For some time he had been engaged in prospecting in the anthracite field on the edge of this and Morgan counties and boarded at Cherry Run. About a week ago he disappeared and searching parties found his body on Tuesday, a short distance from his mine, partly concealed in a clump of

the Methodist Episcopal Church, writes: "The attempt to make an interesting story for the times of which 'The Yoke' treats involves many and great difficulties. The author has met these difficulties in an admirable way, and has been able to present to her readers in a very attractive form some of the recent and most interesting facts of early Egyptian and biblical history."

"The Yoke" will be printed as a daily serial in The Evening Star, beginning tomorrow.
